

Who We Are

Our Mission

The Women's Fund addresses gender-based inequities in our community through collaboration that identifies, researches and creates solutions to advance, educate and fund lasting impact.

Our Vision

A community where all women and girls have the opportunity to reach their full potential.

How We Discuss Gender

Women and girls includes anyone who identifies as a woman or girl. Our work, including funding and advocacy efforts, is inclusive of all individuals, including transgender and gender expansive people, that experience gender oppression.

Our Values

Equity

We are committed to social justice. We actively acknowledge and continuously work to disrupt systemic oppression and remove barriers to equity in our own organization and throughout all of our partnerships and initiatives. We consistently evaluate the impact of our work through an anti-oppressive lens.

Bold Impact

We impact large-scale innovative systems changes aligned to our vision for the future. We use our privilege as funders and individuals to further our mission. We are willing to show up imperfectly in the name of progress.

Collaboration

We believe that we will go further together than alone. We work through partnerships and relationships built on mutual trust and understanding. We center the voices of those who have been most impacted by the systems we aim to disrupt. We actively work to use our position as a funder to hold our partners accountable to our values.

Community Voice

We listen to, amplify and center the voices of those with lived experience who live at the margins. We utilize our resources and relationships to best amplify those perspectives in our community. We strive to disrupt systems of oppression by amplifying diverse lived experiences.

Intersectionality

We value all aspects of identity and recognize that each create unique experiences of discrimination, power and privilege. This guides the complex and trauma-informed responses and solutions we advocate for in the community.

Bodily Autonomy

We believe every body is sovereign unto itself. This belief is a cardinal direction for the work that we do and informs our stance on issues. We respect a person's ability to control their own decisions about their bodies, and work to protect this right.

RESEARCH

The Women's Fund works on the most critical issues facing women and girls and it all starts with research.

We are the leading organization in our community researching issues that impact women and girls:

Economic Conditions

Sexual Education & Health Services

Freedom from Violence

Women in Leadership

This includes publishing the first empirical data on sex trafficking in our state, providing updates to the Women in Leadership report to illustrate the changing leadership landscape in Omaha, collaborating with local experts to develop an employee toolkit on domestic/sexual violence and the workplace, developing a media resource to change the narrative of violence against women, reporting on the state of domestic violence in Douglas County and other critical issues that impact women's economic status.

By utilizing current research, we identify change where it is needed most in our community.

GRANT MAKING

We are the only local foundation that provides grants exclusively to programs for women and girls.

Grant Making in 2021: With a commitment to supporting barrier-free access to sexual and reproductive health care, the Women's Fund invested more than \$9 million to provide free STD testing and treatment, free condoms and barrier-free access to birth control. These grants focus on improving and increasing access to the sexual and reproductive health care that all young people in Nebraska and Southwest Iowa need.

The Women's Fund invested nearly \$1 million in agencies and community partners for training, protocol development and survivor leadership to create a community where everyone can live free from gender-based violence.

Since our work began in 1990, the Women's Fund has invested more than \$50 MILLION in our community to improve the lives of women and girls.

\$50 MILLION

ADVOCACY

Our work is propelled forward through our policy efforts.

We are committed to leading dynamic change by advocating for effective public policy solutions for all women and girls in Nebraska. We are focused on legislation that aligns with our values of equity, bold impact, collaboration, community voice, intersectionality and bodily autonomy.

Use your voice to speak up for women and girls! Advocacy is what keeps our work moving forward. Connect with us online and we'll keep you updated every step of the way and let you know when it's time to contact your representatives.
